

Mobility Management Applications

Cádiz, 28-10-2020
Regina Stork

Options:

- In-house developed tool
- Student Information and Inscription System that is used by more universities and for mobility
- Specific tool (e.g. Mobility Online, MoveOn, others) developed by a commercial company
- No tool available (IIA Manager, OLA..)

University of Cadiz

- Student Information System that is also used by some other universities in Andalusia, but not all have UNIVERSITAS XXI
- UXXI, inscriptions of the students in their subjects, originally module of mobility management was offered, but not developed)
- Excel, access, at the beginning
- In-house tool for mobility ORI2, now

Why we decided to work with an in-house tool?

- We can use information we have already in UXXI
- Everything for example e-mail, internet access is managed through apps related with UXXI
- Interaction between participants, coordinators and managers

Different APPs and Tools

How we can move information from one app to another?

- App for all students who are studying in the university, Student Office UXXI
- Mobility App of the IO: ORI2
- Interaction between Apps: Library, e-mail, internet access
- Information System of the University of Cadiz: Transparent Information Tool
- Quality Assurance System
- ECTS Catalogue, uxxi and goa
- Mobility Tool+
- Erasmus Without Paper

ORI2

Basic structure:

- Partner Universities
- IIAs, Coordinators, Faculties Areas
- Participants, Application of Participants
- Mobility of Participants
- Payment
- Documents
- Reports exporting for example to MT+
- Different roles: Administrator, office manager, coordinator, participant
- Forms for incoming in English (Translation Modul)
