

International Excellence Campus of the Sea

The Sea that join us

Fostering Internationalization
at Montenegrin HEIs through
Efficient Strategic Planning

cei·mar

The International Summer Schools as HEIs internationalization drivers

Virtual meeting, 09th November 2020

Eva Mena. International project manager at CEIMAR

Co-funded by the
Erasmus+ Programme
of the European Union

"This project has been funded with support from the European Commission. This document reflects the views only of the authors, and the Commission cannot be held responsible for any use that may be made of the information contained therein."

Outline

CEI·MAR. The International Excellence Campus of the Sea at a glance.

CEI·MAR in practice:

EIDE·MAR (the International Doctorate School in Marine studies) and the International Summer Schools **CEI·MAR** foostering the internationalization and skilling in Marine-Maritime Sciences

The case of the ISS Geotraces-Spain

CEI·MAR Summer Courses, another tool of specialization.

Organizational and Technical aspects of two ways of courses

Results of internationalization

Useful resources from the **CEI·MAR** consortium to take place in summer.

CEIMAR AT A GLANCE

7 Universities:

7 Research Centres:

1. **CSIC**: The Spanish National Research Council.
2. **IEO**: The Spanish Institute of Oceanography
3. **IHM**: Hidrographic institute of the Spanish Navy
4. **ROA**: The Spanish Navy Observatory
5. **IFAPA**: Research and training institute on Agriculture and Fishery. Regional government.
6. **CAS-IAPH**: Subaquatic Archeology Centre. Historic Heritage Institute of Andalusia.
7. **ARQUA**: The National Museum of Underwater Archaeology.

5 private sector entities at regional and national level

A common challenge

A commitment to management of the seas

CEI-MAR Foundation purposes are to motivate and promote the sustainable management throughout an academic, scientific, entrepreneurial and innovative platform and to promote education and research in different areas of specialization concerning the sea with a growing concern surrounding the deficiencies existing in the current outlook on the management of the seas at international, national and regional level.

To meet these goals **CEI-MAR** works daily towards:

Within 6 main tematics areas:

Collaboration with stakeholders

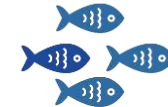

Training, awareness and research

Marine-maritime research

Integrated management of the sea

The sea as a source of resources

European Projects

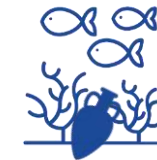

Studies abroad programmes

Health and Well-being from the sea

Marine-maritime engineering

The cultural value of the sea

Natural, biological, social Sciences-
Engineering and Technology - Humanities- Health Sciences

EXCELLENCE OF TEACHING

 4 PhD programmes:

Marine Sciences
and Technologies

Management and
conservation of the Sea

Maritime History
and Archaeology

Marine Resources

 1 Master Degree:

 1 International PhD
University of Ferrara:

INTERNATIONAL DOCTORATE SCHOOL IN MARINE STUDIES

EIDE·MAR

EIDEMAR strengths :

More than 225 researchers

Spreading knowledge and expertise in 21
institutions at International level

Developing more than 75 joint research
Projects

High level scientific production with more
than 2,100 publications and scientific articles

200 Doctorate theses supervised

Mission: Teaching, research, innovation, KT,
and dissemination

This is the basis of knowledge
in marine-maritime field.

PhD in Marine Sciences and Technologies

8 research lines:

1. **Biogeochemical processes in coastal and continental systems**
2. **Ocean and Earth Physics and Geodynamics**
3. **Geophysics and Geodesy**
4. **Sedimentation in marine environments**
5. **Structure and Dynamics of Aquatic Ecosystems**
6. **Molecular and Cellular Biology, Genetics and Genomics of Marine Organisms**
7. **Microalgae Biotechnology**
8. **Energetic and environmental efficiency and technological development of marine facilities**

Marine-maritime
research

PhD in Management and Conservation of the Sea

4 research lines:

1. **Biodiversity, conservation and management of species and hábitats**
2. **Anthropogenic impacts, environment protection and global climate change**
3. **Maritime transport and law, port management, logistic and International Maritime law**

Integrated management
of the sea

PhD in Maritime History and Archaeology

4 research lines:

1. Maritime Archaeology

2. Archaeometry

3. Maritime history

4. Historical and cultural landscape

The cultural value
of the sea

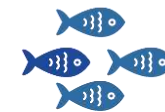

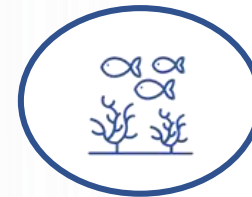

PhD in Marine resources

2 research lines:

- 1. Aquaculture (reproduction of species, nutrition, seaweed functional compounds for aquaculture, etc.)**
- 2. Marine life resources (biology fishing, fisheries resources assesment, etc.)**

The sea as a source
of resources

Nautical and subaquatic Archaeology Master Degree

2 research lines:

- 1. Subaquatic archeology**
- 2. Marine-maritime history**

The cultural value
of the sea

International PhD in Earth and Marine Sciences-EMAS

9 research topics:

1. Environmental Geochemistry
2. Mineralogy and cristal chemistry
3. Petrology and applied petrography
4. Marine geology, stratigraphy and sedimentology
5. Coastal dynamics and management
6. Geodesy and geophysics
7. Physical oceanography
8. Paleontology and paleoecology
9. Applied geology and geomorphology

University of Ferrara

University of Cadiz

EIDEMAR A GOOD TOOL FOR AN INTERNATIONAL SPECIALIZATION

- ✓ **A wide range of knowledge and expertise through the participation of an international panel of experts.**
- ✓ **Increase the number of international students registration specially from Latin America and Morocco, due to attractiveness of the studies**
- ✓ **The International joint PhD programme with the University of Ferrara.**
- ✓ **Interinstitutional Agreements:**
 - INOCAR Navy Institute of Oceanography and Antarctic_ for posgraduate courses**
 - The National government of Education of Argentina (fellowship)**
- ✓ **International collaboration in the frame of Erasmus+ programme**

INTERNATIONAL SUMMER SCHOOLS CEIMAR

Specialization courses offer

Coastal Management and Ocean Processes

Applied Oceanography and integral management on coastal in protected areas around the Galápagos Islands

Aquaculture in southern Europe: Basic and applied aspects

Maritime migration and human rights in the Mediterranean

The amazing world of Seaweeds: an unforgettable journey from Biology to Gastronomy

Marine Toxicology : How our Pollution is Killing Marine Life!

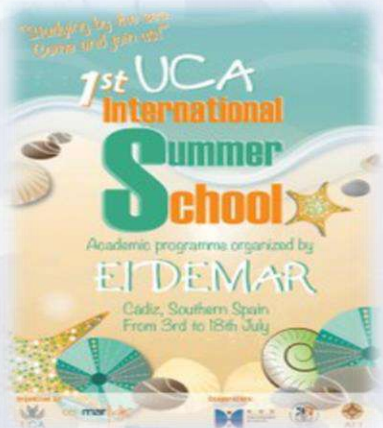

Origin and development of naval architecture

Data analysis methods in Oceanography

Coast tools: Building up knowledge on coastal processes: principles and techniques

Biological Marine Resources Programme

The role of microalgae biotechnology in blue & green economy

An unique training opportunity in the world on board of the school ship 'Intermares A 41'

A skilling course specialized on the biogeochemical cycles of trace metals in the oceans

International summer school within the CEIMAR consortium

7 Universities:

7 Research Centres:

5 private sector entities at regional and national level:

International summer school Geotraces-Spain

Puerto de la Bahía de Cádiz

Autoridad Portuaria de la Bahía de Cádiz

VCENTENARIO FUERTA AL MUNDO

+ 120 applicants

Extra-activities agenda

40 postgraduate students

50 hs. high level specialization

Outstanding team of experts

From 26 countries

Living on board a vessel

A structure of scholarships

Organizing Committee

International summer school Geotraces-Spain 23rd-28th September 2019

General objective: give students, specialized knowledge in the study of heavy metals in the ocean.

Particular objectives of the course are:

1. Gaining knowledge and experience on oceanographic sampling campaigns for collection of samples for the analysis of trace metals.
2. Capacity building to properly select and conduct analytical strategies for the study of trace metals in marine samples.
3. Raise expertise on bio-geochemical cycles of metals in the ocean and their speciation.
4. Data management to analyse the role of trace metals in the ocean.

Contents' Schedule:

Teaching

Sampling practice

Navigation

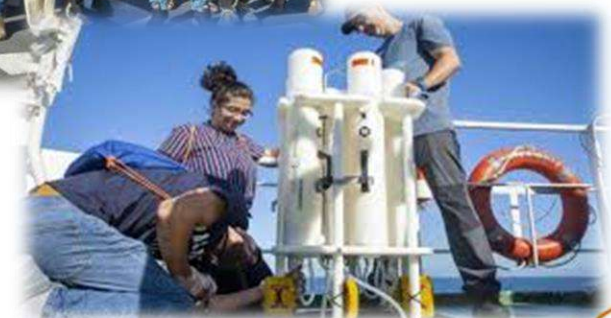

Cultural programme: The Spanish Navy Observatory, Navantia Museum, etc.

Vessel rules of coexistence

Practical travel info

CEIMAR SUMMER COURSES ANOTHER TOOL OF SKILLING

Curso de Verano CEIMAR
“Mares de Andalucía”

**II Curso de Verano CEI·Mar
“Costas de Andalucía”
2020**

The illustration shows a red and white ship on a blue sea. Above the ship, the CEI-MAR logo (an orange atom-like symbol) and the text 'cei·mar' are on the right.

PROGRAMA

<p>20 de Julio de 2020, desde la Universidad de Granada 09:30 Inauguración de las jornadas, con la intervención de los Rectores y Rectoras de las cinco Universidades CEI·Mar de Andalucía. 10:00 Presentación del Curso a cargo del coordinador general de CEI·Mar, Juan José Muñoz Pérez, y del director de Innovación de la Universidad de Granada, Jesús Banqueri Ozéz. 10:15 Conferencia: 'La farmacia del Mar'. 10:45 Mesa redonda: 'Biotecnología marítima'. 11:45 Descanso. 12:15 Presentación de ponencias y participación del alumnado.</p> <p>21 de Julio de 2020, desde la Universidad de Málaga 09:30 Conferencia: 'Oportunidades del Turismo Azul como herramienta de desarrollo local'. 10:30 Mesa redonda: 'Fortalezas y potencialidades del Turismo en segmentos del litoral'. 11:30 Descanso. 12:00 Presentación de ponencias y participación del alumnado.</p>	<p>22 de Julio de 2020, desde la Universidad de Huelva 09:30 Conferencia: 'Aprovechamiento de las energías del mar'. 10:30 Mesa redonda: 'Incompatibilidades y coexistencia de usos posibles en el litoral onubense'. 11:30 Descanso. 12:00 Presentación de ponencias y participación del alumnado.</p> <p>23 de Julio de 2020, desde la Universidad de Almería 09:30 Conferencia: 'Perspectivas de la Pesca y la Acuicultura'. 10:30 Mesa redonda: 'Sobreexplotación pesquera'. 11:30 Descanso. 12:00 Presentación de ponencias y participación del alumnado.</p> <p>24 de Julio de 2020, desde la Universidad de Cádiz 09:30 Conferencia: 'Transporte Marítimo e Ingenierías del mar'. 10:30 Mesa redonda: 'Futuro de los buques y puertos andaluces'. 11:30 Descanso. 12:00 Presentación de ponencias y participación del alumnado. 13:30 Clausura del Curso y entrega de diplomas CEI·Mar.</p>
---	--

"Durante todo el curso se realizará la apertura de la plataforma y gestión de accesos a partir de las 09:00."

Inscripciones gratuitas. Alas limitadas.

**CEI·MAR I Summer School:
The Seas of Andalusia**

**II Summer Course CEIMAR
Andalusia's coastlines**

**A great opportunity to share good practices and knowledge
With a training and scientific outreach purpose**

Research Vessel UCADIZ

- Founded in 2016 and cofinancing by the National government and CEIMAR
- Oceanography research and training vessel, measures 25 mts. in length and 7,5 mts. of beam with technical facilities for multipurpose oceanography, subaquatic archaeology and marine studies.
- It has 4 main scope of actions:
 - Oceanography seasons developed in the Gibraltar Strait, Cadiz Gulf and the Alboran Sea.
 - Underwater Archaeology aimed to capitalize our submerged heritage
 - The teaching on board for bachelor, masters and PhD students in the frame of EIDEMAR
 - Scientific Summer camps addressed to secondary school students
- This vessel is a singular structure for masters and PhD students and the scientific outreach to the society. 2018/2019
- The teaching on board offers a specialization and a great opportunity that supposes a breakthrough in the scientific knowledge.

CEI·MAR I Summer School: The Seas of Andalusia 17th-26th July 2018

- An award to the best academic records of students from the Universities of Granada, Málaga and Cádiz with a total of 10 participants for each university.
- Objectives:
 - Promoting the cooperation among academic and research institutions
 - Exchanging Knowledge and expertise
 - Sharing infrastructures and resources
 - Dissemination and outreach the culture value and the knowledge of the sea.
- Structure of the oceanographic sampling campaigns:
 - UCADIZ vessel stopovers along the 4 ports of the coastline of Andalusia.
 - Exhibition "The Sea as life and knowledge source"
 - Focused on the topics: Archaeology and subaquatic heritage, oceans challenges facing the environment risks, the costline of Andalusia, Alboran sea, operational oceanography and the situation of Strait of Gibraltar, and work in the field and laboratory.
 - Conferences of experts and specialized training.

CEI-MAR I Summer School: The Seas of Andalusia 17th-26th July 2018

**II Curso de Verano CEI-Mar
"Costas de Andalucía"
2020**

PROGRAMA

20 de Julio de 2020, desde la Universidad de Granada
09:30 Inauguración de las jornadas, con la intervención de los Rectores y Rectoras de las cinco Universidades CEI-Mar de Andalucía.
10:00 Presentación del Curso a cargo del coordinador general de CEI-Mar, Juan José Muñoz Pérez, y del director de Innovación de la Universidad de Granada, Jesús Banqueri Ozáez.
10:15 Conferencia: 'La farmacia del Mar'.
10:45 Mesa redonda: 'Bioproductos marinos'.
11:45 Descanso.
12:15 Presentación de ponencias y participación del alumnado.

21 de Julio de 2020, desde la Universidad de Málaga
09:30 Conferencia: 'Oportunidades del Turismo Azul como herramienta de desarrollo local'.
10:30 Mesa redonda: 'Fortalezas y potencialidades del Turismo en segmentos del litoral'.
11:30 Descanso.
12:00 Presentación de ponencias y participación del alumnado.

21 de Julio de 2020, desde la Universidad de Huelva
09:30 Conferencia: 'Aprovechamiento de las energías del mar'.
10:30 Mesa redonda: 'Incompatibilidades y coexistencia de usos posibles en el litoral onubense'.
11:30 Descanso.
12:00 Presentación de ponencias y participación del alumnado.

23 de Julio de 2020, desde la Universidad de Almería
09:30 Conferencia: 'Perspectivas de la Pesca y la Acuicultura'.
10:30 Mesa redonda: 'Sobreexplotación pesquera'.
11:30 Descanso.
12:00 Presentación de ponencias y participación del alumnado.

24 de Julio de 2020, desde la Universidad de Cádiz
09:30 Conferencia: 'Transporte Marítimo e Ingenierías del mar'.
10:30 Mesa redonda: 'Futuro de los buques y puertos andaluces'.
11:30 Descanso.
12:00 Presentación de ponencias y participación del alumnado.
13:30 Clausura del Curso y entrega de diplomas CEI-Mar.

"Durante todo el curso se realizará la apertura de la plataforma y gestión de accesos a partir de las 09:00.

CALL FOR ATTENDANCE TO THE INTERNATIONAL SUMMER SCHOOL GEOTRACES SPAIN

1. Subject

The purpose of the call is the participation in the International Summer School GEOTRACES SPAIN, which will take place from September 23rd to 28th, 2019 in Cádiz, on board the School Ship Intermares A- 41, in collaboration with the Ministry of Defence and the General Secretary of Fisheries of the Ministry of Agriculture, Fisheries and Food of the Government of Spain.

The summer school is organized by the International GEOTRACES program, the University of Cádiz (UCA), the Andalusian Institute of Marine Sciences of the Spanish National Research Council (ICMAN-CSIC), and the International Campus of Excellence of the Sea (CEI-MAR); with funding from the Scientific Committee on Oceanic Research (SCOR), GEOTRACES, the General CSIC Foundation, the International Doctorate School of Marine Studies (EIDEMAR), and CEI-MAR.

Application form

1. Personal data
2. Studies level/cycle of studies
3. Short description of the motivation to participate in the training
4. Brief CV or short description of the research experience and current lines of research/recomendation letter from their institution.
5. Short description of motivation to participate in the training.
6. Gathering special requirements (health, diet, other special mention)
7. Annexes (ID card or Passport, visa , degree, qualificationCV, cover letter, research abstract, etc.)

The screenshot shows a web browser displaying the 'GEOTRACES Application form'. The page title is 'GEOTRACES Application form' and it indicates 'All changes saved in One'. The main content area features the 'GEOTRACES' logo, which consists of the word 'GEOTRACES' in blue capital letters with a red globe icon and a red horizontal line passing through it. Below the logo, there is a form description: 'GEOTRACES, International summer school. 23rd-28th September, 2019. Cádiz (Spain)'. There are also input fields for 'Form description', 'First name', and 'Short-answer text'. The interface includes navigation tabs for 'Questions' and 'Responses', and a 'Send' button in the top right corner.

Selection process

Requirements

The minimum conditions that applicants have to fulfil:

- Studies or level of qualification
- The field of studies/thesis or research
- The enrolment in the current academic year
- Do not be beneficiary of a previous scholarship
- Participation for the first time

Selection criteria

Puntuacion system:

- ✓ Adequacy of the CV of the applicant to the course
- ✓ Interest of the course to the research line or studies
- ✓ CV and acreditations
- ✓ Academic marks report
- ✓ Level of competences at languages

Observe the gender balance

Additional support for people with special needs

Facilitate the transparency and recognition of skills and qualifications

Administer a fair and transparent selection process in order to guarantee equal opportunities for everybody

The information should be published in all networks of institution

The selection procedure must be organised in a way to ensure that the best students worldwide are selected.

DOs and DONTs of a call

DOs

- ✓ **Prepare in advance all the organization tasks**
- ✓ **Contact experts and public institutions for their collaboration**
- ✓ **Frame the call/programme**
- ✓ **Think about the target groups**
- ✓ **Keep it short and simple but make sure that you have indicate everything**
- ✓ **Specify all eligible expenses**
- ✓ **Try to organise the course around the 3 phases the call, development and final.**

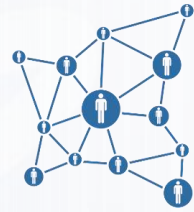

DONTs

- ✓ **Don't assume that everything is known**
- ✓ **Don't cut and paste from previous calls, except the common parts**
- ✓ **Don't share the participants' data without authorization**
- ✓ **Be careful with requirements and selection criteria, transparency and fair**
- ✓ **Don't forget the insurance policy and special requirements (Diet, health, religious, etc.)**
- ✓ **Don't focus only on the requirements, but also mention the results expected and recognition system.**

Results of internationalization. Nice waves

Joint projects

Scientific cooperation networks

Specialization and expertise

Cotutelle of PhD thesis and internationalization of degrees

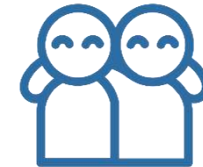

Strengthen the recognition system

Good practices exchange for staff

Promote the international dimension of institutions

topics

Our proposals of collaboration with potential partners

- Developing of academic exchanges in the frame of Erasmus+ mobilities for students and staff by means of the Interinstitutional Agreements.
- Collaborating in joint Projects focused on marine-maritime fields.
- Creating links among the academic, research institutions and industry from **CEI·MAR** and programme countries and associated partners in order to develop a strong multidisciplinary network.
- Participating in new initiatives that may take place in the collaboration scenery.

**If I could
have a bath
in the sea...**

Thank you!

Hopefully we can see you in CEIMAR next Summer!!!
